BASI CPD covers a range of skill development and learning activities suitable for the varying levels in the BASI system. The

modules offer you the opportunity to choose topics that you are interested in developing and areas of personal skill development that have been highlighted for further development. It is inclusive, informative and educational for all.

The BASI CPD system has also been designed to comply with ISIA requirements for those members who hold Level 3 ISIA or Level 4 ISTD levels of qualification.
